SKILLS

- Developing web and mobile applications (Laravel, React Native, JS)
- Managing databases (SQL) and version control (Git)
- Creating graphic designs and editing videos
- Able to work collaboratively within a team

ABOUT ME

I am Kristama, a Computer Science student at Bina Nusantara University with a strong interest in software development and digital content creation. I have experience as a Web Developer (Associate Member) in the university's IT Division, possessing skills in building applications using Laravel, React Native, and Flutter, as well as database management. I am accustomed to collaborating within development teams using Git, possess strong communication skills, and adapt quickly to new technologies.
